ROAD MAP TO OUR NURSERY

Dahlias

Our Dahlias are dormant field-grown Tubers. These flowers are becoming more popular every year. They can be set out as soon as the danger of frost is over until July, and taken up after the tops have been cut down by the frost as they are not hardy. They should be kept in a cool place during the winter.

PEONY-FLOWERING DAHLIAS

These have large loose petaled flowers showing their centers and are borne on strong stems.

GLADIOLI

Flowers well known to all, producing graceful spikes valuable for both house and garden decoration. The buds will open finely in the house. Every home should have some of these lovely flowers. Plant as soon as danger of frost is over and continue doing so at intervals of two or three weeks up to July. This gives you a succession of bloom. Bulbs should be taken up in fall after tops have been cut down by frost and kept in a cool place for the winter.

IRIS GERMANICA (German Iris)

The German Iris is perfectly hardy and grows luxuriantly everywhere, particularly if in a dry and sunny location. Its spikes of flowers are fragrant and fine for cutting. If cut when the lower buds show color they will open finely in the house. Be particular in planting to barely cover the Rhizomes or large fleshy roots. The petals that stand skyward are called the Standards and the ones that hang so artistically are called Falls. These lovely flowers bloom in May and June.

Our list includes many varieties of recent introduction.

Peonies

In the interest of our customers we do not list our Peonies at this time, although we have a fine lot of choice varieties growing in our field. Peonies start active growth so early in the spring that it is very difficult to dig, pack and ship them without injury, as growth and development will be checked for a year. Fall is the proper time to transplant them. If, however, it is imperative that vacancies in the garden be filled, we fill orders for them if received before active growth begins. Varieties may be selected from our Fall Catalogue of 1925, and we cordially invite you to visit us during their blooming season.

SPECIAL NOTICE: All persons to whom this catalogue is sent will also receive in May our General Catalogue, which will contain the largest and finest collection of Holland Bulbs for Autumn Delivery which we have ever offered.

We have at our Nursery in our trial grounds a collection of about 500 varieties of Single Early, Double Early, Darwin, Cottage, Breeder and Rembrandt Tulips, and we cordially invite you to visit us during their blooming season.

We have for years supplied our bulbs and plants to many of the large estates in the beautiful suburban towns on the lake, north of Chicago. This fact alone is indicative of the quality of our stock.

TELEPHONE

We may be conveniently reached by telephone from Chicago and the towns along the "North Shore."

Our number is "Deerfield 241."

RATES

Six or more bulbs or plants of any one named variety offered in this catalogue will be sold at the dozen rate, 25 or more at the 100 rate, and 250 or more at the 1000 rate.

CONCERNING OUR PRICES

The prices quoted in this catalogue are for bulbs and plants of the best quality only, true to name and in sound and healthy condition, properly packed and delivered to the Express or Freight office in Deerfield, free of all charges. Express or Freight charges for transportation from Deerfield must, however, be paid by the purchaser.

SHIPPING

It is our custom to ship our goods by Express as we find the service more satisfactory and, as a rule, cheaper, owing to the size and weight of the packages.

If any customer prefers the Parcel-Post, we will forward small packages in that manner, provided sufficient postage is remitted with the order. Any excess will be returned.

We guarantee our bulbs and roots to be true to name, healthy and in sound condition and strictly first class. We will not, however, be responsible for the failure of any to grow or thrive, as such failure may result from causes wholly beyond our control, such as improper treatment, unfavorable weather, soil or climate. Should any difficulty arise through any fault or mistake of our own we will gladly rectify it. If the purchaser does not accept the goods on these terms, they are at once to be returned and money that has been paid for same will be refunded.

Orders from unknown correspondents must be accompanied by cash or satisfactory references.

We prefer not to receive C. O. D. Orders, but if such are sent they must be accompanied by cash to one-fourth of the value of the goods ordered to insure acceptance.

Money should be sent only by safe methods, preferably Postal or Express Money Orders payable to FRANKEN BROTHERS at DEERFIELD, ILLINOIS, or drafts on Chicago or New York.
